

CFU: 640000 cells/mL

Petri Dish Diameter	90 mm
----------------------------	-------

Dilution Factor	3
------------------------	---

Deposited Volume	100 μ L
-------------------------	-------------

Sample ID	1234
------------------	------

Dish ID	5678
----------------	------

Media	Nutrient agar
--------------	---------------

Incubation	72 hours
-------------------	----------

Notes

Colony Area Range	0.0569 mm ² - 3.95 mm ²
--------------------------	---

Image Captured	26/08/2026 11:05.22
